RECEIVE
Orders are scheduled for delivery to local fabricators on a rotating weekly schedule

WILL CALL
Will Call pick-up is available Monday through Friday from 8am - 2pm at our Berkeley, CA location or Richmond, CA warehouse

Where Creative Inspiration Begins

EVOLV
SURFACES

Natural Stone
Quarry Sourced & Hand Selected

Evolv Surfaces sources directly from the world's most renowned quarries. With a focus on meaningful functionality, our Natural Stone inventory is diverse and of premium quality. Each slab of Natural Stone is uniquely beautiful and our showrooms are the perfect setting to spark imagination and let your creative inspiration begin.

VARIATIONS THAT CREATE UNIQUE PIECES

Every slab of Natural Stone is unique. Slabs can range in tones and shades—varying from light to dark or muted to bold—achieving interest and contrast.

A CURATED SELECTION OF NATURAL STONE

At Evolv Surfaces, we take great pride in procuring natural stone you will never stop appreciating.

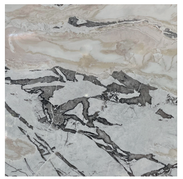

LET THE CREATIVE INSPIRATION BEGIN

An ever-evolving collection. We receive new quarry direct shipments of natural stone frequently and our expert team can assist in sourcing specific material for your project.

Book an appointment to visit our nearest showroom to experience the beauty of our natural stone in person. View images of our current natural stone inventory on our website, **evolvsurfaces.com**.

NEOLITH
touch.feel.live

Neolith is the global leader in sintered stone—a revolutionary and innovative architectural surface made from 100% natural raw materials with superior technical characteristics. Since launching in 2009, Neolith has become the leader in surface solutions for indoor and outdoor spaces, combining exquisite design with excellent durability and functionality.

A CARBON NEUTRAL SUSTAINABLE PRODUCT

Made with natural clays and minerals, Neolith is the most environmentally friendly sintered stone available.

ABSORPTION-PROOF AND ULTRA HYGENIC

With a porosity of less than 0.08%, Neolith is absorption-proof, meaning it is an ultra-hygienic product resistant to bacteria, is easy to clean, and safe for contact with food.

A VARIETY OF FORMATS, APPLICATIONS, AND THICKNESSES

Neolith is available in a variety of slab sizes, thicknesses, and finishes allowing it to be utilized for a wide variety of residential and commercial applications.

FINISH OPTIONS

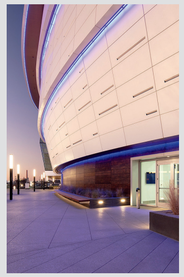

Eight finishes tailor to the textures in your design:
Satin | Silk | Riverwashed | Natural Honed | Slate
Nanotech Polished | Décor Polished | Ultra Soft

NEOLITH

- RESISTANT TO HIGH TEMPS
- EASY TO CLEAN
- SAFE FOR CONTACT WITH FOOD
- RESISTANT TO UV RAYS
- 100% NATURAL
- LIGHTWEIGHT
- RECYCLABLE
- RESISTANT TO BENDING
- ULTRA HYGIENIC

DIRESCO
touched by nature

Diresco quartz slabs are a unique mix of quartz granules, resins and color pigments perfectly balanced to create a stunning, hardwearing, sustainable surface product. Diresco expertly bonds these natural materials through manufacturing processes which have been perfected over the years.

SUPERIOR QUARTZ

Diresco is durable and environmentally friendly. The slabs are composed of 93% crushed natural quartz and approximately 7% plant resin and pigments.

CREATIVE APPLICATIONS

Diresco provides inspirational color choices for designers, architects and visionaries. The surfacing material is used for kitchen countertops, fireplaces, bathrooms, flooring, walls, and staircases. Diresco adds a touch of glamour while blending with surrounding environments.

FINISH OPTIONS

Be seduced by *Velvet*. The luxurious matt finish of this surface creates added value both in terms of aesthetics and touch—giving rise to its velvety-soft name. It guarantees rich color and is easy to maintain.

Give quartz composite a starring role in your interior with *Polished*. A worktop with a high gloss finish is a veritable eye-catcher. The contemporary look and feel will elevate any interior to the next level.

DIRESCO touched by nature

Technical Features:

- HIGH STRENGTH
- EASY TO CLEAN
- RESISTANT TO SCRATCHES
- RESISTANT TO STAINS
